About Me

Computer Science and Business Systems student with a strong interest in software development and problem-solving. I have hands-on experience building full-stack applications using Java, Python, JavaScript, React, and Node.js through internships and personal projects. I enjoy learning new technologies, developing practical solutions, and improving my technical skills. I am looking for an opportunity to contribute to a team, learn from real-world projects, and grow as a software professional.

Education

Panimalar Engineering College, Chennai *Sept 2023 - Present*
B.Tech in Computer Science and Business Systems CGPA: 8.71 (Up to 6th Sem)
HSLC—Sri Chaitanya School, Hosur Percentage: 70%
SSLC—Mathakondapalli Model School, Hosur Percentage: 65%

Internships

Bluestock Fintech *Jul – Aug 2025*
Software Development Engineer Intern (Virtual)
- *Built and shipped SDE features across 2 production releases; implemented REST APIs, wrote unit tests, and deployed using CI/CD pipeline improving backend reliability.*

ServiceNow University – AICTE / SmartBridge *Oct – Nov 2025*
Virtual Internship Program
- *Completed ServiceNow Flows, ATF, Administration, and CSA Exam Preparation modules on the Now Platform.*

Projects

- **Mini Ecommerce Website | React, Node.js, Express.js, MongoDB**
  - *Developed a full-stack e-commerce application with product browsing, user authentication, and shopping cart functionality.*
  - *Built REST APIs using Node.js and Express.js to handle application requests and interact with MongoDB.*
  - *Implemented JWT-based authentication to support secure user access.*
- **FinTrack – Personal Finance Tracker | React, Node.js, MongoDB**
  - *Developed a finance dashboard for tracking income, expenses, and budgets with interactive Recharts visualizations.*
  - *Implemented password hashing and JWT-based authentication, and containerized the application using Docker.*
- **Expense Tracker (Python)**
  Python expense tracking system with categorized analytics and automated monthly reporting across 10+ categories using Matplotlib. Tested with pytest for core calculation modules.

Achievements

Amazon ML Summer School 2026 *Jul – Aug 2026*
- *One of around 3,000 participants selected for Amazon ML Summer School 2026, out of nearly 2 lakh (200,000) students who registered.*
- *An integrated learning program on Machine Learning concepts and applications, held virtually across July 11–26 and August 1–2, 2026.*

Google Study Jams (GDG)
- *Took part in Google Study Jams, organized under Google Developer Groups (GDG).*

Additional Certifications

Oracle Cloud Infrastructure 2025 – AI Foundations Associate & Foundations Associate (Aug 2025)
NPTEL Online Certification – Introduction to Machine Learning *(IIT Kharagpur, Jul–Sep 2025)*
NASSCOM – Data Science for Beginners (Feb 2024, Gold – 89%)
NASSCOM – Software Programmer - Java (Mar 2026, Gold – 88%)
Code-Galatta – Certified in C, C++, Java, Python in DSA (Dec 2023)

Technical Skills

Languages: Java, Python, JavaScript
Frameworks & Libraries: React, Node.js, Express.js, Recharts, Matplotlib
Databases: MongoDB, SQL, Redis (familiar)
DevOps & Cloud: Docker, GitHub Actions, CI/CD
Testing & Tools: Postman, ServiceNow
